ENGRAVER'S DEPARTMENT,

9th May, 1887.

Sir

The design for rider for Marksmanship medals sent by General Benet is not just what I think it ought to be, I therefore have taken the liberty of preparing three designs which I would like to submit to General Benet for his approval. It appears to me that the medal having "Distinguished Marksman" on it, it is out of place to repeat this by putting it on the rider. If the General does not agree with me I can follow his sketch if he so prefers.

I have made some little alteration in his sketch and submit a drawing thereof, I think it should be Marksman and not Marksmen, this applies to the

side only, Marksmen being quite correct  
for the Medal.

The designs I submit for side I think are  
more in keeping with the designs of the  
medals and would make a better general  
appearance

Very respectfully
